Yes

18. Thinking about the future, what are your goals for our public education system and what actions will you take as a state legislator to support our educators, our students and our schools? (answer type: Long Text)

My main goal as a legislator is to ensure New Jersey remains top of the list when it comes to having a quality education system. I also will always advocate for fully funding the pension system, provide resources to our students such as the technology to close the digital divide in our state, and provide resources for infrastructure improvements in our schools.
