The policy should be simple: Allow everyone to make their own choices, and allow children in schools since they fund you.

**13. What issues do you see in this area and how can you assist local districts in addressing school infrastructure needs in both SDA (Schools Development Authority) districts and regular operating districts? &nbsp;&nbsp;  (answer type: Long Text)**

Completely defund the Department of Education and make all collected tax dollars to follow the students in how they decide they should be educated.

**14. As a legislator, will you support professional educators in their work with their students and avoid the temptation to mandate specific programs for every school district as we work to meet the individual needs of each student, school and district? &nbsp;  How will you support the work of educators and principals in your district?&nbsp;&nbsp;&nbsp; (answer type: Long Text)**

The only way to truly support principals and educators is to take out government subsidy and leave education to the free market.

**15. Do you believe New Jersey students should pass a state graduation test or demonstrate proficiency in math and language arts standards as described above to earn a high school diploma? &nbsp; &nbsp;&nbsp;  (answer type: Long Text)**

Standardized assesments are remnants of institutional racism and is therefore racist.

**16. As a legislator, what will you do to promote education as a positive career path to our youth and what types of initiatives will you consider to enhance the educational career pipeline for the future? &nbsp;  How will you promote diversity within our future workforce?&nbsp; &nbsp; (answer type: Long Text)**

Fire teachers that don't show up to work and fill the positions with qualified applicants--not just who's friendly with the superintendents of the districts.

**17. Will you vote for legislation (S-3284 (Greenstein)/ &nbsp; &nbsp;A-5011 (Wimberly) ) that provides the same accidental death benefit to school employees who lost their lives in the service of their school community while performing such essential services? &nbsp; &nbsp; (answer type: Yes/No)**

No

**18. Thinking about the future, what are your goals for our public education system and what actions will you take as a state legislator to support our educators, our students and our schools?&nbsp; &nbsp; (answer type: Long Text)**

My goal is to abolish the Department of Education, and allow the average 60% of our property taxes to follow our students in how they decide is best to be educated.
