

Winter 2018

Manalapan High School
Manalapan, NJ
January 13-14, 2018

aangelozzi@frhsd.com

The team at HackFRee would like to invite you to be part of our second annual hackathon. This 24-hour hackathon will bring students together from the Freehold Regional High School District (FRHSD) for the purpose of collaborative computer programming and learning. FRHSD is located in Western Monmouth County, NJ and approximately 11,400 students are educated in six high schools. The schools include Manalapan, Colts Neck, Marlboro, Freehold Boro, Freehold Township, and Howell. More than 87 percent of our students pursue higher education, including the most prestigious colleges and universities in the nation.

We invite sponsors to mentor our students, present their application interface protocols, and to join us for an engaging teaching and learning experience. HackFRee provides a unique opportunity for technology and engineering firms to showcase their companies to high school students in an effort to recruit potential employees who have the skills to develop incredible apps, improve technology, and design new inventions and innovations.

Sponsoring HackFRee is a great opportunity for your company to engage in community outreach, provide mentorship to the next generation of coders, and to meet passionate designers and entrepreneurs who have only begun to develop their talents.

How you can help:

- Make a monetary donation directly to HackFRee. This is the easiest and most efficient way to sponsor this event. All the funds go back to the students, and it allows us to apply funding where it is most needed.
- Donate or pay for a service such as tools for students to use during the hackathon (e.g. hosting, hardware), t-shirts, meals, awards, or even gifts for participants (e.g. water bottles, keychains).
- In the inaugural year, we are looking for new and exciting ideas for our event. Please do not hesitate to contact us with any sponsorship and/or mentorship suggestions or inquiries that you may have.

Please help us to make this an awesome event for high school students to create, collaborate, critically think, and code in a supportive environment conducive to learning. Below you will find our sponsorship packages that explain how you can support HackFRee.

Please contact Adam Angelozzi at aangelozzi@frhsd.com if you have any questions, if your company wishes to sponsor HackFRee, or if you would like to schedule a phone call or meeting to discuss ways in which you can help support our hackathon. Thank you!

-
1. API demos are offered for companies that offer a public API that hackers can use during the event.
 2. Additional tech talks and/or mini-events may be scheduled as time and organizer discretion allows.
 3. Mini-event could include a video-game competition, fun activity, or other event that provides entertainment to the students during HackFRee.
