

# Cultural Diversity Audit

- You recognize the importance of strengthening diversity and equity practices and policies in your school and district.
- You are committed to ensuring equitable access to high quality teaching and learning for all students.
- You may have taken the first step and attended a professional learning session on cultural diversity, but how do you collect the data that you need to embed new strategies and make a real difference for your school community?

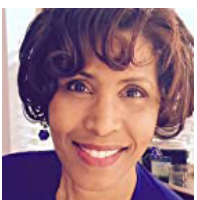

**NJPSA/FEA is proud to partner with Dr. Robin Daniels of InFlight, LLC to offer your district a comprehensive Cultural Diversity Audit**, a powerful assessment tool that enables district or school administrators to uncover stakeholders' perceptions and skills regarding cultural diversity issues.

Working with all stakeholder groups – teachers, administrators, students, families, and communities – over approximately 10-12 weeks, we can help you...

- Learn about your community's readiness to embrace a diversity, equity, and inclusion initiative prior to its launch.
- Monitor the health of an initiative already under way.
- Identify assets and challenges in aligning policies, instructional practices, and programs to strengthen diversity and inclusion.
- Develop a plan of action to move forward following the audit.

Join FEA and lead education consultant, Robin Harden Daniels, Ed.D., as she provides critical information and data that can jump start your district's approach to diversity and equity, supporting the translation of worthy goals into embedded practice.

**Equity is not optional for a quality education. It is a necessity.**
